

Dick White Referrals

CENTRE OF VETERINARY EXCELLENCE

The Neurology, Neurosurgery and Neuro-oncology Clinic

"The highest human duty is to rescue animals from cruelty and pain" (E. Zola)

Welcome to the Dick White Referrals Neurology Service which provides the most advanced neurology, neurosurgery, neuro-oncology, neurosurgical intensive care, physiotherapy and advanced nursing care available for dogs, cats, rabbits, ferrets and other exotic companion animals. Our dedicated team is able to undertake the full range of neurological procedures and advanced treatments – medical, oncological, surgical, rehabilitation and intensive care. This includes MRI scanning, advanced electrodiagnostic tests and cerebrospinal fluid analysis. All of our neurology services are available on a 24-hour, 7 days per week basis.

Our patients' welfare is always our first priority, and they are cared for by a team of dedicated neurotherapist nurses in state-of-the-art air conditioned wards.
